

## Scott Edward Bartlett

July 24, 1998 - March 17, 2020

Scott Edward Bartlett, age 21, of Laguna Hills passed away on Tuesday, March 17, 2020. Cherished son of James and Terri Bartlett, beloved brother of Max Bartlett. Survived and missed by his grandmothers, and many aunts, uncles, and cousins. Loved by his longtime girlfriend Hayley Maciel and a loyal friend to many.

Scotty was a fun loving free spirit who never failed to surprise his family and friends with his observations and adventures. He graduated from Laguna Hills High in 2016 and went on to study at Oregon State and San Jose State University where he was currently enrolled as a junior. Born and raised in Orange County, he loved hanging out at the beach; especially San-O. His friends were all precious to him and he adored spending time with them, entertaining them in his unique and often hilarious way. He had big dreams to live in a house on the beach someday.

He loved music and often played for hours on his guitar. He was a big fan of the Grateful Dead, John Mayer and other great guitarists.

He took great joy in playing ice hockey with his fellow Frostwolves at the Great Park where he was known for his "I don't believe in shoes" mantra.

Scotty, we miss your big smile and are heartbroken over all the tomorrows we will never get to share with you.

We're so grateful for the time we had with you and all the wonderful memories we will always hold dear. We hope you are hanging out with Jerry Garcia and reveling in the music you loved so much.

"You could leave life right now. Let that determine what you do and say and think."

A Celebration of Life will take place when the time is right.

“ I met Scotty the first day of high school freshmen year in science class and he became one of my best friends instantly. He was such an amazing person to be around, from his jokes to busting out a freestyle, he always lit up the room. I will forever remember the impact he made in my life and everyone else around him! Love you Scotty B Christmas Tree! Corner kids for life

“ I've known Scottie for quite some time now. We attended Oregon state together as freshman and were able to share some of the best memories I have to this day. Wether it was creating music or exploring the campus we always found ourselves with something to do. Never have I encountered such an amazing soul full of life and love to give to others. The infamous freestyle sessions and lounging by the train tracks are memories I hold dear to my heart. The world has lost an amazing soul and I have lost an amazing friend. Rest easy Scottie B.

“ Some of the best days of my life were tearing up hills on longboards with Scotty, we spent almost every single day together back then and I will hold onto those memories forever. I don't know how me and Matt talked you into starting wrestling in 8th grade but god I'm glad we did because you were the one that made that team as fun as it was. I always looked up to you Scotty wishing that I could be as funny and creative as you. You are one of the greatest people to walk this earth and I know you're jammin with Mac and I hope you told him how obsessed I am with him. I will never forget you, I love you brother.

“ Scotty was one of those guys who just was such an amazing soul, I don't think he had a negative bone in his body, his Presence was just comfortable and made you feel good I love him like he's my own blood I would do anything for that kid and I know he's do the same for me. I love him and will be l'm my heart forever

“ As one of Hayley's good friends, I got lucky enough to hang out with Scotty multiple times. Every time Scotty was around, there were so many laughs and good times to be had. Scotty was an amazing human being and his heart was so kind and so soft. I will miss hearing his jokes and phrases and funny stories. May he rest in peace in the hands of God My condolences to his family and loved ones.

“ I loved Scotty like a brother, and he would always tell me I was the little bro he never had, then give me one of those big Scotty hugs that will smother you till you push him off. I would sleep over at his house just so I wouldn't have to try and get a hold of him the next day. I loved hanging out with you, hearing you play the guitar, and that high pitched laugh that lit up the room. You never didn't have a smile on your face and you've never put any of your friends down. When I first started playing guitar, you were always there when I had questions, and would jam out with me even though I sucked! You're a true friend Scotty boy, you never failed to make my life easier and just way more fun. When I was a freshman you accepted me right away into your junior group, not a thought about how young I was. You liked me for me and our friendship flourished. I will never forget you, I love you man.

“ I knew I could always count on Scott to make me laugh, I knew no matter what we were all going to be doing Scott would make it fun. On my birthday one year I was so sad because my boyfriend wasn't able to make it from out of town to spend it with me, and still to this day the highlight of my birthday was Scott and how fun he was. Everything about that kid was amazing, and his heart was truly one of a kind. He always wanted everyone around him to be happy and would do anything and everything to get someone out of a bad mood. I think about Scott every day and all the laughs he brought into my life. I miss you Scott and I wish you were here with us, but I hope you're jammin out to Grateful Dead and John Mayer while barefoot wearing your favorite Hawaiian shirt up there

“ Jim, Terri and Max, We are devastated to learn of the passing of your beloved Scotty. We feel so blessed to have met Scotty when he was visiting here in Portland and we were looking forward to his next jam session. Just from the short time spending with him it was obvious that he was a gentle force of nature that loved his family, friends and all that he touched. Our hearts are broken for you as you endure the unfathomable. May His light continue to shine brightly in the sky and our hearts. We love you all, Todd, Karen, Allee and Quinn (your Portland family)

“ Scotty was my best friend, and we had a special bond . The bond was often cherished in the summer as we would go to San onofre. We played music, bbq, and no matter what Scotty would always paddle out to surf. I could always count on Scotty to make me smile and laugh. Everytime we got to hangout I knew he was able to make my day brighter . He was very gifted at the guitar, harmonica , and even the bongos and the unforgettable beat dubstep pad connected with his laptop . We had so many jam sessions in his Mazda hatch back . He was someone who always meant well with the biggest heart . He was the man and I love his parents and I'm sending them love, condolences, and the warmest energy to soothe them during this time. I love his family. We had this similar share of interest for adventure, music , and surfing . Anything that involved thrill seeking adventures, he was my number one friend for that. Rest easy and can't wait to trade off perfect endless waves and when we get back into the shoreline we can crack open a 805 beer and roast some dogs over the fire pit with some Grateful Dead In the back .

Your friend, Blake Canas

“ Guys we're so sorry to hear about Scotty. Whether it was hoisting the Geno cup when they were kids or on the ice last summer it was great to see them together. Scotty brought humor, a bright smile, and joy with everyone he touched. It was an honor to know your son. Blessing from my family to yours...including the Coyote- The Campbells

“ I am so deeply saddened to find out that such a bright star took its last ride across the night sky. Scotty had one of the brightest and warmest hearts you could ever find in a person. He was funny, kind, and showed love to all those who surrounded him. I mean honestly I can genuinely say it was such a pleasure being around him. I always looked forward to when he'd be at a get-together because he'd be the guy to make a friendly event feel more like a family event with how genuine and welcoming he was. A year could even go by without seeing him and it would be like we had just seen each other yesterday. He never skipped a beat and just always made you feel like a brother no matter what or when. He was just that kind of person and filled with that much warmth and love. Everything about him will be missed and I can assure you any time we all get together again it will never be the same without him.

“ Scotty, this is Captain Fuller. Your dad and I have been best friends for over 50 years, I remember when you were born and I'm honored that we share the same middle name. Every year you and your family came to Colorado and we went to our mountain cabin. What great memories. You were like a second son to Marnie and I and like a brother to Chelcee. We are all heartbroken and will never forget you. We all loved you and the rest of your family. Rest in Peace!

“ Scotty for me was someone that always accepted me no matter what. His spirit was one of undying spirit and limitless aspirations. Scotty's freestyle guitarist guitar playing is the best I have ever heard. He played with raw emotion, something that is most uncommon in the world today. Scott's heart and vision will be miss my me and by many. I am honored to have been Scotty's friend.

“ The first day I met Scotty he welcomed me into his family with a big hug and huge genuine smile. It has been an absolute privilege getting to know him over the past few years. His personality was infectious, vibrant, and his quirky laugh always put a smile on my face. There aren't many 21 year olds who would be interested in hanging out and getting to know their older brother's girlfriend, but Scotty did. It meant so much to me that Scotty wanted to get to know me, and put the effort into making me feel so comfortable with his family.

My favorite Scotty memory was about a year ago. Max and I had come back from the Harry Potter theme park and brought Scotty a bag of Bertie Bots Every Flavor Beans. I had eaten them before and told horror stories about the earthworm and vomit flavored jellybeans. We offered the beans to Scotty and proposed a fun game where he had to eat every flavor until he had tried them all. Scotty was ALWAYS down for any dare. He ate every bean, and we all sat around the table cracking up at his facial expressions after each flavor. He ate every damn bean, and even enjoyed the vomit flavor jellybean. This is how I will remember Scotty- always adventurous, and beautifully humorous.

Scotty, we love you so much.

“ I miss you Scott. Words can't describe how I feel right now but I'm just happy I was lucky enough to have you as a friend for as long as I did. Never a dull moment with you bud, I don't even know where to begin. My go-to friend if I wanted to have fun. I'm always going to remember your huge smile and even bigger heart. Love you Scottward.

“ Words can't express how broken I am, absolutely heartbroken. I feel like I lost a piece of me and I still can't wrap my head around this it doesn't feel real at all I just don't wanna believe it. Scott was one of my best friends to say the least no matter what I was going through if I didn't have friends if I didn't have anyone to talk to he was always there even when people didn't like me Scott would call me and check in just to tell me he still loves me like a brother. I just talked to him about a week ago he called me and just reminded me he cared about me if I needed anything he was there. And I'll remember those words for the rest of my life. I remember for my 22nd birthday I didn't have really any friends no one there for me no one to talk to no one that really showed they cared and Scott made the effort to surprise me with a cake and sand happy birthday to me and that's something I'll remember for the rest of my life u were always there when I needed someone and u were such an amazing person to talk to. I love you to death Scott and I'll never forget u or all the times I told u shut up out of love when u always sang that damn gravity song... the things I'd do to just hear u say that one more time. I love you so much bro I will never forget u and ur legacy will live on forever. On a side note I've been thinking about picking up playing guitar just in honor of u so I can play those same songs and think of u. I miss u so much Scott and I wish this wasn't real it still doesn't feel real I'm just broken I love you bro and I know ur watching down on my pain free. I've never experienced losing a best friend and I sure as hell didn't think it would come so fast. I love you so much. If there's anything the Bartlett family needs pls don't hesitate to reach out.
