“ My closest friend for twenty-nine years has left this earth to begin a new journey and though he is no longer with us, the memories of our friendship will remain with me forever. I learned so much from him. He proudly showed me around Los Angeles, which he referred to as his city, and pointed out the buildings on which, as an architect, his fingerprints still remain. Ted taught me so much about how to grow beautiful flowers, though I could never match his roses; taught me how to appreciate the game of golf, which I had always believed was just for stuffy old men; taught me how to play piano duets with him, which were a highlight of many evenings; taught me much about cooking, though I still could not hold a candle to his barbecues; and even taught me how to enjoy collard greens, which coming from New England had not been a part of my previous diet.

My prayer for Ted now is that he may be able to reunite with his Mother, whom he loved and missed so deeply, and with his many good friends who have left this earth before him. May he be enjoying God's kingdom of love, peace and tranquility, where pain and suffering for him are no more. Good-bye, dear Ted, for now until we may meet again.

“ I remember when I was a little girl(maybe 6), my Uncle Ted called my mother arranging that I visit him & Aunt Rae that weekend.

He stated that he was going to pick me up and that we were going to have lunch & see my great-grandmother and we would have our time together. I was SO excited! He told me that it was a special occasion and that he was getting his hair cut just for me.....

I swooned *giggles* .

In response, I told my mom to make my hair really pretty and add nice barrettes and that I needed to wear a really nice dress because I was spending the day with my Uncle Ted!

He always made me feel so special. He had that effect sometimes....

Miss you, Uncle Ted.
